

Days of Rain

Blowsight

You say, you hate to be here
But I don't mind to meet the morning
The colours range from blue to everything between the red and green
You swallow needles to feel free
I'm overwhelmed, I need to breathe
It's got to be so damn hard to feel the way you feel about yourself

You're not alone, you're not alone
And when you're so in love that you cannot see
The pain in you and the pain in me
The love is blind we can't deny it
The clouds are dark but we're moving on
You stand up straight but it's been too long
The love is blind and we can't deny it
In the days of the rain

You close your eyes to disappear
You can't replace me without fear
The nights are so much longer than before
I don't believe in any stories
I'm the one to blame - my glory dies
How can it be so hard to change the way you feel about yourself?

Yeah, you're not alone, you're not alone
And when you're so in love that you cannot see
The pain in you and the pain in me
The love is blind and we can't deny it
The clouds are dark but we're moving on
You stand up straight but it's been too long
The love is blind and we can't deny it
In the days of the rain

(When you're so in love)
In the days of the rain
It keeps pouring down
And when you're so in love your temple breaks
Train of tears and your body aches
Turn around the scars you show
Don't be afraid
You're not alone

It keeps pouring down, yeah

And when you're so in love that you cannot see
The pain in you and the pain in me
The love is blind and we can't deny it
The clouds are dark but we're moving on
You stand up straight but it's been too long
The love is blind and you can't deny it
The clouds are dark but we're moving on
We stand up straight but it's been too long
The love is blind and we can't deny it
In the days of the rain
