

My Never

Blue October

Will you think of me,
In time?
It's never my luck,
So nevermind.
I wanna say your name,
But the pain starts
Again,
It's never my luck,
So nevermind.

I had a dream that you were with me,
And it wasn't my fault,
You roll me over,
Flipped me over,
Like a somersault.
And that doesn't happen to me
I've never been here before
I saw forever in my never,
And I stood outside her
Heaven.

Will you wait for me,
In time,
It's never my luck,
So never mind.
And yeah I've lost a lot of what I never expect to ever return
I tend to push 'em 'til the pushing's turned from hurting to burn,
I always take them to that place they always wanted to go,
Then end up dancing 'round
This clown commands,
Applause at a show...

I had a dream that you were with me,
And it wasn't my fault,
You roll me over,
Flipped me over,
Like a somersault.
And that doesn't happen to me
I've never been here before
I saw forever in my never,
And I stood outside her
Heaven.

And I could only dream of you and sleep,
But I never see sunlight again,
I can try to be with you, but some how I'll end up just losing a friend,
And I can only reach for you
Relate to you,
I'm losing my friend...
Where did she go?
Where?

I had a dream that you were with me,
And it wasn't my fault,
You roll me over,
Flipped me over,
Like a somersault.

And that doesn't happen to me
I've never been here before
I saw forever in my never,
And I stood outside her
Heaven.

Will you let me into your heaven?
