

# When The Truth Comes Out

Blue Rodeo

Everyone I've ever known  
They've been cut right to the bone  
Left bleeding in the rain  
And with nothing to defend  
They just lean on all their friend  
To bring them back again

Now I'm watching  
Moonlight move across your eyes  
You should stay asleep  
Miles and miles to go

Its amazing what we do  
When we want to break on through  
Amazing how we rush  
But I've known the wounded heart  
When we've drifted far apart  
And I've lived without your touch

Now you know  
Night time brings it back to me  
The time I've lost my way  
And I wondered what went wrong

But I've turned myself around  
I'm not losing ground here anymore  
Not breaking myself down  
I'm only waiting on the open door

Fall in love, rise above, everything is clear  
You'll be caught between believing and your doubt  
When the truth comes out

Wake up girl and talk to me  
I need to hear your voice  
It's lonely in the night

But I've turned myself around  
I'm not losing ground here anymore  
Not breaking myself down  
I'm only waiting on the open door

Fall in love, rise above, everything is clear  
Through it all, rise and fall, I know just why I'm here  
We'll wonder what our tears were all about  
When the truth comes out

The truth comes out  
(When the truth comes out)  
The truth comes out  
(When the truth comes out)
