

## Baby Jealousy

Blue System

What kind of boy youre looking for, my love  
Or is the price too high, I will pay enough  
Oh, its no game between us anymore  
I feel it in my heart, babe I cant ignore  
Oh I know, oh I know it  
Love will change everything  
Oh I know, oh I know it  
I have to love, I have to win

Baby jealousy, is killing when you touch me  
When youre close to me, oh love is when you hold me  
Thats eternity, believe me, believe me, I swear  
Believe me, believe me, believe me, I swear

What are you doing when your friends will say  
Im living in my world and Ill go my way  
Im walking through the streets of loneliness  
I need you in my heart, baby I confess  
Oh I know, oh I know it  
Youre not a one night love affair  
Oh I know, oh I know it  
Baby, call and Ill be there
