

Dressed In Blue

Blue System

You're so good, you're so bad, you're my childhood dream
But I know you'll go, baby, oh it seems
You can win if you try not to play a game
Play your cards, oh, my love and I play again

I wanna give love, I wanna share love with you
She's gonna dressed in blue
I wanna give love, I wanna share love with you
See what a love can do
Oh, I have found the fun on the telephone
The only trouble is I need a kiss

She got sex, she could bring, she got everything
But I know it's a love on broken wings
Oh, tell me all your dreams and I tell you mine
I don't care if the sun or the moon don't shine

I wanna give love, I wanna share love with you
She's gonna dressed in blue
I wanna give love, I wanna share love with you
See what a love can do
Oh, I have found the fun on the telephone
The only trouble is I need a kiss

Oh, I wanna give love and I wanna share love with you
She's gonna dressed in blue
I wanna give love
