

Every Night, Every Day

Blue System

Every night, every day - oh, Im searching for my way
And Im dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive
Every night, every day - oh, Im searching for my way
And Im dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive

I said ... - promised paradise
Every night, every day baby, oh I pray
Oh she lied - when she cried
She can not hide
She was sad, so sad
I saw love in her eyes
And my paradise
Every night, every day - hard for me to say
I was blind, so blind
Couldnt realize that my heart, my heart was hypnotised in you

Every night, every day - oh, Im searching for my way
And Im dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive
Every night, every day - oh, Im searching for my way
And Im dreaming of you all my life
Every night, every day - oh, believe me oh I pray
Set the dream to your heart to survive

Oh, I cry, I cry forever
Why cant we stay together ?
Cant you see my life is in your hands ?
Oh, I cry, cry forever
Baby, I love you ever
Cant you see my life is in your hands ?
Cant you see my life is in your hands ?

Oh it hurts that shes gone
Feeling so alone
Every night and every day - hope to awake
Come back - please come back
Always in my head
Only you makes me blue
Whatelse can I do
Cant I find in your mind
Youre the lonely kind
Every night and every day
Believe me when I say
I need you, just you - couldnt realize
That your heart in my heart was so specialised in me
