It's too late to stop her now in her rhythm shoes
She believes in fairy tales, you cannot stop the blues
Everybody loves that girl, everybody on this world

Oh, she has it all and she got sex like a dream machine
Every night she dancing like a fire in my dream
She's still a mystery, oh, she want just everything
Was it just a dream on golden wings?

She danced in Rio and she danced in Tokyo
On every stage she's doing her midnight show
She danced in New York - Berlin - Paris all the time

She danced in Rio and she danced in Tokyo
In every town she's dancing her successful roll
She danced in New York - Berlin - Paris all the time

Oh, it's too late to stop me now, let the music die
Find the magic of the night turning you into alive
Everybody loved that girl, everybody on this world

She danced the up tempo rhapsody like frequency in the snow
Every night she temped the fire, baby, she would know
She's still a mystery, she wants everything
Was it just a dream on golden wings?

She danced in Rio and she danced in Tokyo
On every stage she's doing her midnight show
She danced in New York - Berlin - Paris all the time

She danced in Rio and she danced in Tokyo
In every town she's dancing her successful roll
She danced in New York - Berlin - Paris all the time
