

# Oh, I Miss You

Blue System

Please forgive me  
I don't want to make you cry  
Please forgive me  
Ohh, I'm just your jealous guy

Ohh, it's five o'clock, we're sitting in my car  
Ohh, just you and me and a lonely star  
Ohh, I swear you, ohh, I will love you, baby  
Ohh, I need you, more and more

Ohh, I miss you so  
(I miss you so)  
I'm the greatest fool  
To let you go  
(To let you go)

Ohh, we started in heaven  
I'm waiting just for you  
I thought we stay together  
Just we two

Please forgive me  
You are strong, when I am weak  
Please forgive me  
You're my heart, if I can't speak

Secret love, with no name, I feel you everyday  
Loneliness, just found me, why you walk away?  
Ohh, I swear you, I will love you, baby  
Ohh, I need you, more and more

Ohh, I miss you so  
(I miss you so)  
I'm the greatest fool  
To let you go  
(To let you go)

Ohh, we started in heaven  
I'm waiting just for you  
I thought we stay together  
Just we two

Ohh, I miss you so  
(I miss you so)  
The only thing I need is you, I know  
(I need you so)

My heart is always open  
I'll never smile again  
If I can't be your lover  
I will be your friend

Ohh, I miss you
