

I got a message from the stars
Like the moonlight serenade
I'm looking through the eyes of love
It's not too late
You know the legends never die
Close your eyes and count to ten
Looking through the eyes of love
Feel you babe again
Masquerade of loneliness
Masquerade, oh it's a mess
Can't you see what I feel ?
Come on, come on

Titanic 650604
Could it be magic - give me more
Titanic, titanic, hear the beat of your fire
Titanic 650604
Light and close the door
Titanic, see your painted smile, feel desire

Come, let's be on tonight
I never get enough
I never gonna give you up - I never get enough
Saw you in that light - in the old old night café
I'm looking through the eyes of love
Oh what could I say ?
Masquerade of loneliness
Masquerade, oh it's a mess
Can't you see what I feel ?
Come on, come on
