

## When You Are Lonely

Blue System

Keep a light in your window  
Keep a light in your heart  
A summer breeze is blowing softly  
Oh you tear apart  
Oh those days are over  
But you cant stop a real good love  
Dont you remember that day  
When we started our way  
Never ever forget - what you said

Oh when you are lonely  
Lonely like me just forever  
Come baby lets stay together  
Someday theres someone for you oh yeah  
Oh when you are lonely  
Lonely like me and youre calling  
Ill be right there if you are falling  
Someday theres someone, thats true

Oh were dancing one summer  
And the wind calls your name  
Money cant buy you good things  
Cant buy your friends  
Oh it happened before girl  
And it happens again  
Baby, I dont sleep alone  
When nobody is at home  
Never ever forget that you are gone
