

A New Dawn

Blutengel

I'm driving on an endless road
Searching for my future
I leave my home
I leave my past
Just to search for something new

I escape from the world of sadness
I try to become a better man
Feel like a soldier in a useless war
Trying to survive

I wanna reach a new horizon
I wanna to try to touch the sky
I don't want to turn back anymore
I leave my memories behind

Like a phoenix from the ashes
My life will shine again
I'm burning down my past
I'm solitary man

I am waiting for a new dawn
But tomorrow never comes
I waste my youth
I waste my future
I am trapped inside this time
