

## It's My Life

Bo Bice

Looking out the airplane window  
Thirty thousand miles of shadow  
All the silver linings bend into the night  
Never any hesitation  
Never any explanation  
I wish I had a ticket off this flight

Everything keeps moving fast  
What I want is what I have  
Right now, I'm closer that I thought I could be

[Chorus:]

It's my life, my time to find the answers  
Don't always know what kind of road is in front of me  
But I'll go slow wanna remember every moment  
That this is by the goodness ride has ever been  
It's my life

In times I really miss my family  
I wonder what they're doing right now  
I know their thinking of me  
I can't imagine where I'm going  
But I know where it is I come from  
And it makes me feel complete

Everything keeps moving fast  
What I want is what I have  
Right now, I'm closer that I thought I could be

[Chorus:]

It's my life, my time to find the answers  
Don't always know what kind of road is in front of me  
But I'll go slow wanna remember every moment  
That passes by the goodness ride has ever been  
It's my life, it's my life

And it's a real good fight  
Trying to find what's mine  
Tryin' to be who I'm supposed to be  
It's my life, its my time to find the answers  
Don't always know what kind of road is in front of me  
But I'll go slow wanna remember every moment  
That passes by the goodness ride has every thing  
It's my life
