

Peggy Day

Bob Dylan

Peggy Day stole my poor heart away
By golly, what more can I say
Love to spend the night with Peggy Day.

Peggy might makes my future look so bright
Man, that girl is ought of sight
Love to spend the day with Peggy night.

Well, you know that even before I learned her name
You know I loved her just the same
And I tell them all, wherever I may go
Just so they'll know, that she's my little lady
And I love her so.

Peggy Day stole my poor heart away
Turned my skies to blue from gray
Love to spend the night with Peggy Day.

Peggy Day stole my poor heart away
By golly, what more can I say
Love to spend the night with Peggy Day
Love to spend the night with Peggy Day.
