My Hippy Angel

Bob Geldof

All the birdies swimming in the sea All the fishies hanging in the trees All the people down on their knees Rise up as one and sing And in the middle of my troubled sleep My hippy angel came to me Saying chill out, be cool, stay free I said I'm not sure what you mean And she said

Love is all around It's coming up from under the ground Live like radiation Radiate across the entire nation Love for you and me Moving out across the EEC Love it goes so far Travelling out across the USSR Loving going all the way Stretching right across the USA Love in Asia Minor Africa, India, Australia and China Come on

All the people in their cardboard boxes The old and lonely in their tower blockses The frightened ones who need some calm My hippy angel said we all must chant And all the birdies swimming in the sea And all the people hanging from the trees And all the fishies down on their knees Rise up as one and sing Love is all around

She must be mad.
