

Holding In The World

Bob Schneider

Got my breath turned off
Machine gun
Biscuits and gravy
And nowhere to run

I got my ring of fire
Black gold and pearl
Got my monster makeup
Holdin' in the world

Holdin' in the world (chorus)

I got impossible karate
Got the real live wire
A crazy combination
Couldn't get any higher

Got the gamma radiation
A chocolaty swirl
A sticky implication
Holdin' in the world

(chorus)

You can't stop me I'm takin' out everyone
You can't tell me how to have my fuckin' fun
You can't tear me apart the way I do myself
(Holdin' in the world)

I don't need anything from no one
Keep your distance stay the hell away from
You can't tear me apart the way I do myself

I got my greasy metal barebone (rifle)
I got the book of the dead
Every Human thing
Stuck inside my head

I got the love sweet affection
Got all my flags unfurled
I got my big stiff gorilla
Holdin' in the world

(chorus)

You can't stop me I'm takin' out everyone
You can't tell me how to have my fuckin' fun
You can't tear me apart the way I do myself
(Holdin' in the world)

I don't need anything from no one so
Keep your distance stay the hell away from me
You can't tear me apart the way I do myself

I got my hot red pony
I got my stranglin' hook
I got a big ol' burrito

Got all The shit that you took

I got a tattoo of the dead son on my dead son.
I got my fingers all curled
I got a mountain of mountains
Holdin' in the world

(Holdin' in the world)

You can't stop me I'm takin' out everyone
You can't tell me how to have my fuckin' fun
You can't tear me apart the way I do myself
(Holdin' in the world)

I don't need anything from noone
Keep your distance stay the hell away from me
You can't tear me apart the way I do myself
