

# The Long Black Road

Bob Schneider

There's a big black heart in a big black box  
In a big black box at the bottom of the big black sea  
And there's a long black road ahead, waiting for me

There's black gold in these black veins  
And I wear a black smile for you honey, that's misery stained  
And there's a long black road ahead of me

And there's a black grin on a black moon  
In a black starless sky  
You put a black magic spell on me, baby  
That got me so high

And there's a long black road you see, ahead of me
