## **One Among The Three Of Us**

**Bobby Bare** 

One among the three of us is always in the way.

People talk but still I walk like a queen with all her charms When I'm alone I know what's wrong he's somewhere in your arms Don't know my friend where this will end but all we have to say Yes, one among the three of us is always in the way.

One among the three of us is always in the way Yesterday I was the one so today must be my day There'll come a time these tangled minds will all have dues to pay

'Cause one among the three of us is always in the way.

He tells me that he loves me and that his love is true
But he tells me the same old thing but he can't be true to two
Oh, it's a cryin' shame but we're all to blame in this crazy ga
me we play

'Cause one among the three of us is always in the way.

One among the three of us is always in the way Yesterday I was the one so today must be my day There'll come a time these tangled minds will all have dues to pay

'Cause one among the three of us is always in the way...
