Bobby Valentino

Oh yeah, oh yeah  
She always takes me by surprise  
It's like my birthday every night  
Yeah, yeah, yeah, yeah

She's got the cutest little body design  
On her back, yeah  
That booty got your boy hypnotized  
Oh, yeah

She knows just how to put it on  
But man, oh man the way she take it off  
I'm saluting like a soldier  
She got me hooked, the way she put it down  
I like it from the front

But I love that butterfly tattoo  
In the middle of her back  
I like it when she works it like that  
Butterfly tattoo, it's like taken flight  
And I'm gonna give it to her all night

She put her hair up and arched her back  
And ooh, I love the way she throws it back  
Yeah, there's nothing that I'd rather do  
Than watch that butterfly tattoo

Now throw it back, back, throw it back  
Throw it back, back, throw it back  
Throw it back, back, throw it back  
Throw it back, I love that butterfly tattoo

I even see it in my dreams at night  
And when you wake up, I wake up ready for the ride  
Yeah, yeah, yeah

Now you take my breath away like a thief in the night  
When the sun comes up, you open your eyes  
I'm playin' with your hair, you're making we rise

She knows just how to put it on  
But man, oh man the way she take it off  
I'm saluting like a soldier  
She got me hooked, the way she put it down  
I like it from the front

But I love that butterfly tattoo  
In the middle of her back  
I like it when she works it like that  
Butterfly tattoo, it's like taken flight  
And I'm gonna give it to her all night

She put her hair up and arched her back  
And ooh, I love the way she throws it back  
Yeah, there's nothing that I'd rather do  
Than watch that butterfly tattoo

Now throw it back, back, throw it back  
Throw it back, back, throw it back  
Throw it back, back, throw it back  
Throw it back, I love that butterfly tattoo

Oh, yeah tattoo  
Oh, yeah tattoo

Butterfly tattoo  
In the middle of her back  
I like it when she works it like that  
Butterfly tattoo, it's like taken flight  
And I'm gonna give it to her all night

She put her hair up and arched her back
