

Make You the Only One

Bobby Valentino

yeah
Valentino
Tim and Bob
you already know let's go

[Verse 1]
Baby, I'm so glad I found you
Now I'll never let you go
Cause what is there without you, girl
Let me, build my world around you
give you just what you need, boo
promise I won't play no games

[Chorus]
No more party, party for me
no more drinky, drinky for me
I'm going to make you the only one, yeah...
No more chasing pretty round things
No more running 'round sneaky
I'm going to make you the only one
for me, for me
I'm going to make you the only one
(I'm going to make you the only one, girl)
I'm going to make you the only one
(I'm going to make you the only one)

[Verse 2]
When we, make love its like a dream
such a beautiful scene
don't have to work for anything, no...
heaven, gave me what I pray for
and I thank god each day for
enjoying life beside you, girl...

[Pre-Chorus]
make me sing to you, make me sing tweedle-dee
make me fall to my knees
cause you so sexy
and please, girl
never leave, never leave me
thats a plead
I never knew, but now I see
you were made for me

[Chorus]
(I found you...)
No more party, party for me
no more drinky, drinky for me
I'm gon' make you the only one
(I'm gon' make you the only one...)
No more chasing pretty round things
No more running 'round sneaky
I'm gon' make you the only one
for me, for me
I'm going to make you the only one
(I'm going to make you the only one)
I'm going to make you the only one

[Bridge]

I'm turning my player heart in
as we begin, right here, right now, for sure, girl you know
that you turned my life around, the way I go,
now I, belong, to you
(you make me wanna sing...)

[Pre-Chorus]

make me sing to you, make me sing tweedle-dee
make me fall to my knees (to my knee)
cause you so sexy
and please, girl
never leave, never leave me
thats a plead
I never knew, but now I see
you were made for me (no more party..baby)

[Chorus]

No more party, party for me
no more drinky, drinky for me
I'm gon' make you the only one
(make you the only one for me)
No more chasing pretty round things
No more running around sneaky
I'm gon' make you the only one
for me, for me

No more party, party for me
no more drinky, drinky for me
I'm gon' make you the only one
(I.. won't..)
No more chasing pretty round things (round things)
No more running around sneaky
I'm going to make you the only one
for me, for me
I'm going to make you the only one
(I'm going to make you the only one, girl)
I'm going to make you the only one (ooohh)
I'm going to make you the only one (I'm gonna make you the only one for me)
I'm going to make you the only one (ooohh yeah..)

[Fade out]
