

# Any Road

Boy George

Halo slipping.  
Your eyes are tired.  
And the walls are moving, slowly.

I'm taking the wind now.  
I never loved you.  
Love ain't friendly.  
On a one man show.

If you don't know where you're going,  
Any road will take you there.  
If you don't know.  
If you don't know.  
If you don't know where your going,  
Any road will take you there.  
If you don't know.  
If you don't know.

five years later  
not so crazy  
Repaint the picture  
You're a real van Gogh

Counting the days now.  
The consequences.  
Echo in laughter.  
More seeds to sow.

If you don't know where you're going,  
Any road will take you there.  
If you don't know.  
If you don't know.  
If you don't know where your going,  
Any road will take you there.  
If you don't know.  
If you don't know.

If you don't know.  
If you don't know.

If you don't know where you're going.  
Any road will take you there.  
If you don't know.  
If you don't know.

Any road yeah.  
Will take you there.  
Any road.  
If you don't know.
