

# Feel The Vibration

Boy George

Tears in my coffee cup  
Too much war  
Not enough love  
Dictators never went away  
Feels like faith took a holiday  
Feel the vibration  
Feel the vibration

Freedom is in the air  
You might die  
But you just don't care  
All you can do is pray  
When violence feels like the only way  
Feel the vibration  
Feel the vibration

What can make me free  
No false philosophy

Follow me to Tahir Sq  
Hear the sound of freedom there  
Follow me  
Follow me  
Down to Damascus
