

Genocide Peroxide

Boy George

Beautiful child in razor heels
Sashays into the room
All the boys
they catch their breath
And the mirrors swoon
Now she's running down the hall
Head scarf and Hollywood smile
She's got a dagger in your back
And a killing style
Love and hate
it's all the same your way
Just another twisted game you play
Evil, child star, movie queen
Evil, sweet charm, mabeline
Evil, no one gets the better of me
Your father's rage and a cocktail dress
And a bullet proof heart
Why is your life in such a mess
If you're so damn smart
Judy Garland, Jimmy Dean
You tragedy queen
Give me fat girls
give me rough boys
Give me what I dream
