

In Maya

Boy George

Boy I like the way you stand
there's no blood upon your hand
you turn the world around for me
chased the fools out of my life
when I'm wrong you'd set me right
you are really waisting me
When I'm lying here afraid and full of fear
My heart is telling me our love is insincere
You smile that wicked smile like you know everything
And I hear oh yes I hear I can hear the angels sing
In maya
In maya
In maya
In maya
you're in maya
Blessed is the heart of man
so many ways to understand
you know everything I fear
oh boy you breath a lot of pain
and you make the oceans sway
it's so good to have you near
In maya
In maya
In maya
In maya
you're in maya
when I'm scared I protect myself
I put the blame on to some forfaith
wicked words just to make you cry
if i am true I apologise
boy I like the way you stand
there's no blood upon your hand
you turn the world around for me
chased the fools out of my life
when I'm wrong you'd set me right
you are really waisting me
In maya
In maya
In maya
In maya
you're in maya
don't you know you are
in maya
