

It's Easy

Boy George

Take the car.
Take the flatscreen.
Let me keep my dignity.
Take it all, it's just a shallow victory.
We all know, no one wins.
When a heart gets broken
And this time, thank the lord, it ain't you.

It's easy when you're the one who stops loving first
yeah it's easy when you're the one who stops loving first
Now your big words mean nothing
Your smile is like a curse.
Oh it's easy when you're the one who stops loving first

Take the money.
Take the honey.
Take the light out of the sky.
Take it all, it's just a shallow victory.

We all know, no one wins, when a heart gets broken
And this time, thank the lord, it ain't me.

It's easy when you're the one who stops loving first.
Yeah it's easy when you're the one who stops loving first.
Now your big words mean nothing.
Your smile is like a curse.
Oh it's easy when you're the one who stops loving first.

Out of a win for a stranger.
Oh man you're cold.
So cold.

I know you wouldn't change.
And you tried so hard.
To add some truth.
To the cold.

It's easy when you're the one who stops loving first.
Yeah it's easy when you're the one who stops loving first.
Now your big words mean nothing.
Your smile is like a curse.
Oh it's easy when you're the one who stops loving first.
