

My Star

Boy George

My star shining sweet, slightly out of reach
In a gangster's teeth, yeah yeah
On the hand of a bride, getting ready to take that ride
Feel the storms stir up inside, yeah yeah

No one will complete you, this is true
So I won't ever try to change you
If I can't love you just the way you are
Then I'd better walk away my star

My star so effete, decadent and sweet
Feels like you're the one for me, yeah yeah
If you give the tears a miss
I'll give you the spider's kiss
Who needs TV when I've got this, yeah yeah

No one will complete you, this is true
So I won't ever try to change you
If I can't love you just the way you are
Then I'd better walk away my star

My star, falling into my arms
In the stratosphere, somewhere out there
Where dreams come from
