

# Best Night of Our Lives

Boyzone

Many times I have closed the show  
Many times I have watched the crowd go  
But in time, my father said  
All these lessons learned

Many times I would paint this town  
So many ways I would lose this crown  
But inside, my mother said  
All these lessons learned

We are born to make mistakes  
And in turn hearts will break  
Someone will have to mend the pieces of the puzzles that we make  
But it won't matter darling  
'Cause tonight  
We'll have the best night of our lives

Many times I have stormed the shores  
Find a place I can call mine and yours  
But in time, I've found  
It was right before our eyes

We are ships across an ocean  
Let out hearts out to the breeze  
Never know when it was sinking 'cause we're wasting everything  
But it won't matter, darling  
'Cause tonight  
We'll have the best night of our lives

And even in my darkest hours  
I'm sending out a flare for you tonight  
Oh, tonight  
And it won't matter darling  
'Cause tonight,

We are born to make mistakes  
And in turn hearts will break  
Someone will have to mend the pieces of the puzzles that we make  
But it won't matter darling  
'Cause tonight  
We'll have the best night of our lives

Best night of our lives  
Best night of our lives
