

Heaven Is

Boyzone

My love, I didn't know
A smile could ever mean this much
Stranded by your softest touch
You're too beautiful

Oh my love, I'm sure
Every time I see your face
It takes me to a simple place
Where I can be me again

There's no way left, I need to go
And nothing else I need to know
There's no one I would rather be
Now you're with me

There's nothing lost that I will miss
No one before or after this
This moment will forever be
The moment when I knew

Heaven is wherever I am lying safe with you
(My love)

All my life,
Only in my wildest dreams
I have dreamt you here with me
You make me so complete

There's no way left, I need to go
And nothing else I need to know
There's no one I would rather be
Now you're with me

There's nothing lost that I will miss
No one before or after this
This moment will forever be
The moment when I knew

Heaven is wherever I am lying safe with you

Heaven is wherever I am lying safe and warm with you
