

# If We Try

Boyzone

You've been walkin around starin into space  
Carryin a load like a heavy case  
When it's not enough  
It's not enough

And all the beautiful things that you used to love  
Taking walks in the rain and all that stuff  
When it was enough  
It was enough

Oh hey!  
Here's a little invitation  
Time to have a little conversation

If we try  
We might just find  
We can fly  
If we try

Caught you lookin in the mirror, lookin back at me  
There's a truth in your eyes only I can see  
When you're still in love  
You're still in love

With a bottle of red, knowing me and you  
We can work it out in a glass or two  
Maybe there's enough  
There's enough

Oh hey!  
Here's a little invitation  
Time to have a little conversation

If we try  
We might just find  
We can fly  
If we try

Hey!  
Here's a little invitation  
Time to have a little conversation

Have a life, have a love  
And I feel like I'm going home  
Have a life, have a love  
And I feel like I'm going home

If we try  
We might just find  
We can fly  
If we try

If we try [4x]
