

## Back To The Future

Brad Paisley

I went to see Father of the Bride  
with a girl back home  
we broke up before the sequel,  
so I went to that one all alone.  
I wondered who I'd wind up with,  
and what would our kids look like.  
Well I guess I got my answer  
as I tucked them in tonight.  
Heyyyyyy, I don't think dreams come any truer  
boys, welcome to the future
