

Make a Mistake

Brad Paisley

You over think things
You say what if we're not meant to be
Well you know what so what
Make a mistake with me

Nobody goes through this life and does
Everything perfectly
We're all gonna fail so you might as well
Make a mistake with me

Sometimes baby when we take
A chance that has this much at stake
We look back and in hindsight
What seemed wrong looks more like right

So I say worst case we'll be left with
Lots of good memories
This chance we have well it's worth that
So make a mistake with me

I'm tellin' you the right thing to do
Is make a mistake
Make a mistake
Make a mistake with me
