I could've been workin' overtime
Or at home tryin' to make that truck run right
Instead of wadin' out in that stream
All day long barely catchin' a thing
Just me and dad
I'm glad he talked me in to that

It was time well wasted And there's no way I trade a few more dollars in my pocket I could've spent

For a day I'll never forget No, I didn't get a thing done

But I sure soaked up every minute of the memory we were makin' And I count it all as time well wasted

Those leaves were a foot deep in the yard And 'wash me' was written all over the car But watchin' movies all day with you Wasn't on my list of things to do But we laid on that couch Girl, we never left the house

It was time well wasted

And there's no way I trade a few more things that I could've cr ossed off my list

For a day I'll never forget

No, I didn't get a thing done

But I sure soaked up every minute of the memory we were makin' And I count it all as time well wasted

This world spins too fast if you let it There's always one more thing to do But lookin' back I never have regretted Takin' off early or callin' in sick Or lovin' away a Sunday afternoon

It was time well wasted

And there's no way I trade a few more dollars or things crossed off my list

For a day I'll never forget

No I didn't get a thing done

But I sure soaked up every minute of the memory we were makin' And I count it all as time well wasted

I count it all as time well wasted
