

Making Me Nervous

Brad Sucks

Here we go.

One step at a time don't be living on the line,
I don't need a friend, I got morbid on the mind.
Sunshine in my brain making everyone complain,
Radio in the heart, don't be being so strange.
I think I'm losing it, baby where you been,
Everybody says that you're moving again.
I don't wanna be right baby every single night,
I could tell you a thing about taking your time.

It's making me nervous, yeah.
