Love Songs

Brandi Carlile

I can never write a love song I can never write a blue song When I'm in love I am a lover And I have always had the blues

I am afraid that no one sees me What will they say when I am gone It occurs to me I think I miss you I think I've missed you all along

Out of the corner of my eye (out of the corner of my eye) Not sure if I should think these things of you Is it the wrong place at the wrong time I think it's just my turn to lose

Thoughts of you could give me smile lines I laugh myself to sleep because I knew (I knew) We were talking 'bout a fine line It depends on who you're talking to

If it's any consolation The blues have always had me too And if I ever write a love song I think I'll write it about you
