

Give Me A Sign

Breaking Benjamin

1. Dead star shine
Light up the sky
I'm all out of breath
My walls are closing in
Days go by
Give me a sign
Come back to the end
The shepherd of the damned

X: I can feel you falling away

R1: No longer the lost
No longer the same
And I can see you starting to break
I'll keep you alive
If you show me the way
Forever, and ever
The scars will remain
I'm falling apart
Leave me here forever in the dark

2. Daylight dies
Blackout the sky
Does anyone care
Is anybody there
Take this life
Empty inside
I'm already dead
I'll rise to fall again

X: I can feel...

R2: No longer the lost
No longer the same
And I can see you starting to break
I'll keep you alive
If you show me the way
Forever, and ever
The scars will remain
I'm falling apart
Leave me here forever in the dark

*: God help me I've come undone
Out of the light of the sun
God help me I've come undone
Out of the light of the sun

X: I can feel...

R3: No longer the lost
No longer the same
And I can see you starting to break
I'll keep you alive
If you show me the way
Forever, and ever
The scars will remain

Give me a sign
There's something buried in the words

Give me a sign
Your tears are adding to the flood

Just give me a sign
There's something buried in the words

Give me a sign
Your tears are adding to the flood

Just give me a sign
There's something buried in the words

Give me a sign
Your tears are adding to the flood
Forever, and ever
The scars will remain
