Give Me A Sign

Breaking Benjamin

- Dead star shine
 Light up the sky
 I'm all out of breath
 My walls are closing in
 Days go by
 Give me a sign
 Come back to the end
 The shepherd of the damned
- X: I can feel you falling away
- R1: No longer the lost
 No longer the same
 And I can see you starting to break
 I'll keep you alive
 If you show me the way
 Forever, and ever
 The scars will remain
 I'm falling apart
 Leave me here forever in the dark
- 2. Daylight dies
 Blackout the sky
 Does anyone care
 Is anybody there
 Take this life
 Empty inside
 I'm already dead
 I'll rise to fall again
- X: I can feel...
- R2: No longer the lost
 No longer the same
 And I can see you starting to break
 I'll keep you alive
 If you show me the way
 Forever, and ever
 The scars will remain
 I'm falling apart
 Leave me here forever in the dark
- *: God help me I've come undone
 Out of the light of the sun
 God help me I've come undone
 Out of the light of the sun
- X: I can feel...
- R3: No longer the lost
 No longer the same
 And I can see you starting to break
 I'll keep you alive
 If you show me the way
 Forever, and ever
 The scars will remain

Give me a sign
There's something buried in the words

Give me a sign Your tears are adding to the flood

Just give me a sign
There's something buried in the words

Give me a sign Your tears are adding to the flood

Just give me a sign
There's something buried in the words

Give me a sign
Your tears are adding to the flood
Forever, and ever
The scars will remain
