

It's The Talk Of The Town

Brenda Lee

I can't show my face, can't go anyplace
People stop and stare it's so hard to bear
Everybody knows you left me
It's the talk of the town
Every time we meet my heart skips a beat

We don't stop to speak
Know it's just a week
Everybody knows you left me, uh
It's the talk of the town
We send our invitations to friends and relations
Advancing our wedding day
Friends and our relations gave congratulations

How can you face that
What can you say
Let's make up sweetheart
We can't stay apart
Don't let foolish pride, keep you from my side
How can love like ours be ended
It's the talk of the town
We send our invitations
