San Francisco

Brett Dennen

Go if you want to go But I won't follow Just so you know Leave if you want to leave But I won't be here When you come home

I'm gonna to move to San Francisco Look up some old friends I'm gonna get me a navy pea coat And an old Mercedes Benz

This old town it keeps shrinking There's too many people in my junk I'm gonna do a lot of drinking Cause it don't hurt when I'm drunk

I'm gonna rent me an old Victorian Down in the Lower Haight I'm gonna get me an old accordion Play for the tourists on the golden gate I'm gonna plant a little garden Paint my bathroom blue I'm gonna try real hard To get over you

Here in the city life doesn't move so slow There's plenty of good people I know Up in north beach they drink spicy Italian liqueur Down on market there's a lot of hobos and hustlers

Down in Hayes Valley, there's a lot of good restaurants Deep in the tenderloin you can have anything you want Over in the mission it's always a sunny day It's a real good baseball town but my team is across the bay

When you come home
