

I'd like to win Father of the year  
From the day you're born 'til when I'm no longer here  
I'd like to be your best friend, the one to build your confidence  
Your number one for all  
I'll take you to your first ever school play  
If you're Villager 6 and you have no lines to say  
Well I'll still be in the front row, filming for the upload  
Of your big day

People make mistakes and I know I will time after time  
But just promise that you'll learn from mine

Child, live and love  
I need you to  
Find the best part of  
Me in you

When you fall in love, cherish your heart  
If it breaks, don't let it tear your world apart  
Keep your friends close, they're what you need the most  
When times are hard

People make mistakes and I know I will time after time  
But just promise that you'll learn from mine

Child, live and love  
I need you to  
Find the best part of  
Me in you
