

## More Than Human

Bride

Devil in your head  
A serpent in your tree  
Soaring through the heavens  
of your lost soul  
You believe every lie  
Jump from every shadow  
Listen to them you will live  
in guilt and shame

We are,  
Here to Save your Souls  
More than Human

Your crime is never waking  
from your mortal sleep  
I do not condemn you  
Twisted duality  
Jesus never condemned  
Jesus He forgave  
Never took revenge  
Christ we will be saved

7

I tried to tell you the truth  
To share my heart with you  
But it comes by revelation  
To those who hunger and thirst  
Against hope believed in hope  
I am not ashamed  
I do not live in guilt  
In my world there is no pain

They say I am going to burn But they will never learn  
I'll never be like them I'll never be like them  
They all dress in white to cover the flesh on their back  
I'll never be like them I'll never be like them
