

## Ski Mask

Bride

Let's go out and have some fun  
With our ski mask and hand guns  
Driving fast cars to the sun  
We'll be blind but we'll die young  
We were wild when we were young  
With our ski mask and hand guns  
The law means nothing when you're numb  
I bet those handcuffs weighed a ton  
Ski mask and hand guns  
Lived on the edge lived on the run  
With those ski mask and handguns  
I never knew love until I met you  
Makes me do the things I do  
Walking, talking, no use crying  
Living, loving, no use dying  
There was a time I thought I knew it all  
I could walk before I crawled  
Jesus crushed my heart of stone  
Gave me love I had never known  
Don't need no, don't want no
