

Thunder In the City

Bride

I won't be a part of you
I'm in a world of my own
You know i'll see it through
I can't be burnt and won't lie like you

Because I'm thunder
Thunder in the city
Thunder, thunder in the city

Destination overdrive
I said - destination overdrive
You can be just like me
Just like me

You can be thunder
Thunder in the city

Up to ten then a little more
Pushing higher we're going to soar
Feel the force against your chest
Riding on the wings of our jet

Thunder, thunder in the city
You can be thunder
Thunder in the city
