Yeah

I won't last long Soon I'll be gone I won't last long Soon I'll be gone

It's all the same to me
There's nothing to see
It's all the same to me

I feel so weak
I won't last long
I feel so weak
Weak in the world

It's all the same to me
There's nothing to see
It's all the same to me
I'm not made to last
I'm not made to last
I will soon be gone
Yeah yeah yeah yeah

I won't last long Soon I'll be gone I won't last long

I'll be gone

There's nothing for me to be What will happen to me What will happen to me Although I'll soon be gone I'll still think of you Oh I'll think of you And I will soon be gone
