

Kissin' in the hallway
Turn off all the lights
Fragments of a lost love
Dissolve into the night

And I'll never get this feeling out of my head
And I'll never wanna be the one you forget

Blood hits the pavement from your eyes
Under the streetlights, but I've got you
Your restless limbs are goin' wild
They're comin' for mine cause they've got you

Climb into the back seat
Sitting on each other's knees
Wannabe on repeat
Acting like real ladies

And I'll never get this feeling out of my head
And I'll never wanna be the one you forget

Blood hits the pavement from your eyes
Under the streetlights, but I've got you
Your restless limbs are goin' wild
They're comin' for mine cause they've got you

I, I, I, I got you
I, I, I, I got you

And I'll never get this feeling out of my head
And I'll never wanna be the one you forget

Blood hits the pavement from your eyes
Under the streetlights, but I've got you
Your restless limbs are goin' wild
They're comin' for mine cause they've got you

(I, I, I, I)
Cause they've got you
(I, I, I, I)
I've got you
