Kissin' in the hallway Turn off all the lights Fragments of a lost love Dissolve into the night

And I'll never get this feeling out of my head And I'll never wanna be the one you forget

Blood hits the pavement from your eyes
Under the streetlights, but I've got you
Your restless limbs are goin' wild
They're comin' for mine cause they've got you

Climb into the back seat Sitting on each other's knees Wannabe on repeat Acting like real ladies

And I'll never get this feeling out of my head And I'll never wanna be the one you forget

Blood hits the pavement from your eyes
Under the streetlights, but I've got you
Your restless limbs are goin' wild
They're comin' for mine cause they've got you

I, I, I, I got you I, I, I, I got you

And I'll never get this feeling out of my head And I'll never wanna be the one you forget

Blood hits the pavement from your eyes
Under the streetlights, but I've got you
Your restless limbs are goin' wild
They're comin' for mine cause they've got you

(I, I, I, I)
Cause they've got you
(I, I, I, I)
I've got you
