

American Girl

Brooke Valentine

Mmm

I'm watchin' day time TV
I'm young and I'm restless
I'm on no sunset beach
I'm burnin up in here in Texas
Paranoia on main street
Not enuf to eat
Too many burgers and these fries
Are makin me crazy

It's kinda strange growin' up here
Never less safe but don't be afraid
You gotta take what you get here
'Cause nobodies gonna change their ways

Many places to travel in this world
No matter where I go
I'm an American girl
This Disney Worlds your underworld
Try to escape it
Just face it you American girl

We all have the same dream we wake up
On a reality series in a Taxi cab confessing
We're having to much "Sex in the City"
With our pre paid cellular phones
We call apartment homes by the time
We're 14 yeah were already grown
Where we'll end up from here
Well we don't really care
Though we tear up everything we still love to be here.

Many places to travel in this world
No matter where I go
I'm an American girl
This Disney Worlds your underworld
Try to escape it
Just face it you American girl

From hooters to looters
We're drowning in beer
Your ruder I'm cruder
Your blurred and I'm clear
Your not helping me here
'Cause we're living in fear
I'm not judging you
But I'll push you and push you

Many places to travel in this world
No matter where I go
I'm an American girl
This Disney Worlds your underworld
Try to escape it
Just face it you American girl
