You're talking candy from the jar

You spin the lid which one first?
Desert of temptation what soda will quench this thirst?

Don't wonna be left behind

The grass is always greener on the other side. So don't you treat me like the first -

Chocolate in the box I know you'll take another

What you want is a looker not a lover in the box

'Cause I know you'll take another what you want is a looker.

Not a lover I've discovered.

You want your cake and eat it with a silver spoon in your hand

Don't give me that innocent girl thing

'Cause I'll close the door with a slam.

Don't wanna be left behind

Chocolate in the box I know you'll Take another

Chocolate in the box I know you'll take another

Chocolate in the box I know you'll take another

Chocolate in the box I know you'll take another
