

Ten Out Of Ten

Bros

Brick walls and windows
reflect in the light,
Fabric so limp hiding the night
People almost families
Building their nests,
God knows it's perfect,
ten out of ten

Concrete views and vistas
lining the sky
Washing so grey hung out to dry
Families almost happy
learning their lines,
From crib to cradle,
Ten out of ten

Ten out of ten
over and over again
Back to the future
back to the end

Tent poles and canvas
concealing the grass
Modern fakers walking on glass
New generation they never pretend
Well done children,
Ten out of ten

Ten out of ten
over and over again
Back to the future
back to the end

Overloaded arks suitable for rain
Animals with doubles
biblical but strange
It's home on the range.

Ten out of ten
over and over again
Back to the future
Ten out of ten
over and over again
Ten out of ten
over and over again
Back to the future
back to the end
