

# Turn Around

Bruno Mars

I, I, I don't know why, why  
It seems like every other night you pick a fight, fight.  
And I know I do the same, be callin' you out your name,  
This is not what lovers are suppose to do.

You tell me to go, I start walkin out,  
We both know what we're all about.  
We fuss, fight, and scream,  
And it's all because of love,  
but you know ----- we ain't ever giving up.

Everytime I try to leave  
Somethin's tells me turn around  
'Cause how could I ever leave  
The only one that holds me down  
'Cause I know we can work it out  
Talk it out, stick it out oohh  
Everytime I try to leave  
Find that we can figure it out  
That's why I always turn around

Baby, before you say, say,  
Something you know you'll take back later on today, day.  
Sometimes you drive me crazy, but I love ya, baby  
All I ask is that you'll always appreciate me, ooohh.

You tell me to go, I start walkin out,  
We both know what we're all about.

We fuss, fight, and scream,  
And it's all because of love,  
but you know ----- we ain't ever giving up.

Everytime I try to leave  
Somethin's tells me turn around  
'Cause how could I ever leave  
The only one that holds me down  
'Cause I know we can work it out  
Talk it out, stick it out oohh  
Everytime I try to leave  
Find that we can figure it out  
That's why I always turn around

Ain't nobody that can love me, like you love me.  
That's why I always turn around for you, you you, youuu. You, you you, youuu  
.  
Ain't nobody that can love me, like you love me.  
Thats why I always turn around. For you, you you, youuuu. You, you yooou.

Everytime I try to leave  
Somethin's tells me turn around  
'Cause how could I ever leave  
The only one that holds me down  
'Cause I know we can work it out  
Talk it out, stick it out oohh  
Everytime I try to leave  
Find that we can figure it out

That's why I always turn around
