BSP

I wanted to stop hanging loose
And come to you
And feel the stones inside you
For you it's hard -
Let's go, baby
Just when you are so close
C'mon, baby
Roaring I'm so close
C'mon, say good night

'cause there's no regret
C'mon, say good night
smile and sleep instead
Won't you be cold?
Friends we were and then
I made you sad
Now you're down
We have a lot, be crazy,
hang on - no no - start to count
