

On The Border

BSP

I feel like a lonely statue
Help me find that soothing park
Cats drinking the Moon from fountains
Hope we'll see the other side

Give me love, forget your father
Give me love you make every night

I'd write various funny stories
On the border of your hair
You'd laugh all the sleepless night
So I hope you'll show me the other side

Give me love, forget your father
Give me love you make every night
Give me love and give me love
and don't think of your father
Give me love you make every night
every night
every night
every night
every night
every night
Give me love, forget your father
Give me love you make every night

I know it's wild and crazy
But don't tell me that I lie
